

## ORDERING

If you want us to do the set-up:

Put your details in a 'Word' document together with :-

- Font preferences
- Indicate any text which is to be **Bold**
- Text Position (justified left, right or centre)
- With Border or No Border
- Ink colour

then upload using the 'Send' tab

**Include your order reference number in the file name**

PRINT2DAY PTY LTD  
295 PENNANT HILLS RD  
THORNLEIGH NSW 2120

Left justified

PRINT2DAY PTY LTD  
295 PENNANT HILLS RD  
THORNLEIGH NSW 2120

Right justified

PRINT2DAY PTY LTD  
295 PENNANT HILLS RD  
THORNLEIGH NSW 2120

Centre justified

Logos need to be black & white line drawings (vector artwork) not colour, photographic or greyscale.

• Ink colours: Black, Red, Blue, Green, Violet

Note: this ink is not suitable for stamping on glossy brochures - you may want to consider the i-Stamp.

Colop R40

REMEMBER - The area available for your information is reduced when using a border.

### IMPORTANT

Self inking stamps can't be re-inked using traditional stamp pad ink as it distorts and ruins the rubber matt. Each unit has a replaceable ink pad which can be purchased separately when needed.

Ink pads last for approximately 10,000 impressions.

The iStamp is quick and easy to use - just take off the cap and push down. It's also available in a Quick Dry version for using on glossy brochures and plastics.

**IMPORTANT - you must replace the cap immediately after use with the Quick Dry version otherwise it will dry out very quickly and often can't be used again, even after re-inking.**

iStamp re-fill ink available.

# How much can I fit on a stamp?

These examples give an idea of how much text you can comfortably fit on a stamp, with or without a border, using a plain font. For logos, bold or fancy fonts you may need to go to a larger stamp.

### Things to remember when choosing fonts...

Stamps use wet ink and can bleed into the paper - the smaller or heavier the font the more likely it is that the letters will fill in and look 'blobby'

When you need to go smaller, making your text CAPITALS might work better than using Upper and Lower case.

PUTTING YOUR TEXT IN CAPITALS MIGHT BE MORE LEGIBLE THAN UPPER AND LOWER CASE - this is ARIAL 5pt  
Putting your text in capitals might be more legible than upper and lower case - this is ARIAL 6pt

Plain text often reproduces clearer than roman styles like Times - ARIAL 6.3pt  
Plain text often reproduces clearer than roman styles like Times - TIMES 7pt

Fancy fonts are hard to read when they are all capitals. They work better when you use them sparingly.
